MEMORANDUM

FC 14 (02-08-19)

TO: Board of Directors

FROM: Darin Taylor,
Chief Financial Officer

SUBJECT: Monthly and Quarterly Report of Investments
as of December 31, 2025

DATE: January 21, 2025

SUMMARY:

In accordance with Santa Clara Valley Water District (“Valley Water”) Investment Policy and California Government Code sections 53607 and 53646, the Treasurer’s Monthly and Quarterly Report of Investments as of December 31, 2025, is attached. This report complies with Executive Limitation-4 Financial Management.

RATIONALE:

California Government Code section 53607 requires the Treasurer of the local agency delegated with the authority to invest funds to provide a monthly report of the investment transactions to the legislative body. Furthermore, Government Code Section 53646 recommends that the Treasurer submit a quarterly report to the legislative body of the local agency to assist with its fiscal oversight role. The quarterly report shall include the types of investment, issuer, date of maturity, par, market value and dollar amount for all securities, investments and money held by the local agency. The report shall also confirm compliance of the portfolio with the investment policy as well as a statement denoting the agency’s ability to meet its expenditure requirements for the next six months. This report is provided to the Board in compliance with Board Investment Policy and Government Code sections 53607 and 53646.

STAFF ANALYSIS:

Interest Rates

The yield-to-maturity of the investment portfolio as of December 31, 2025, was 3.69%. Table 1 below summarizes the historical yield-to-maturity of the investment portfolio.

Table 1 - Portfolio Yield-to-Maturity (365 days equivalent)				
Fiscal Year	September Q1	December Q2	March Q3	June Q4
2025	2.63%	2.68%	3.21%	3.52%
2026	3.70%	3.69%		

Investment Strategy

In accordance with the strategy recommended by the Investment Committee and approved by the Board, staff continues to ladder the portfolio. When funds mature, if the money is not needed for current expenditures, they are reinvested in securities that have maturities of up to five years.

The average life of the portfolio on December 31, 2025 was 522 days (1.4 year), well within the 2.5-year average life threshold permitted by the Investment Policy. During the quarter, the Treasury Officer purchased 14 securities totaling \$69M with weighted average yield-to-maturity 3.8%.

Valley Water's portfolio is invested with a primary goal of safety. To accomplish this goal, staff only invests in securities that are permitted by California Government Code and the Valley Water Investment Policy. These securities have high credit ratings and maturities of no more than 5 years. As of December 31, 2025, approximately 60% of the portfolio was held in US Government Treasury/Agency Notes and Municipal Bonds, 36% was held in liquid funds (Local Area Investment Fund/money market mutual fund, CD's) and 4% in supranational/corporate medium-term notes.

The current short-term interest rate environment correlates to the Federal Funds target rate. At the December 9-10, 2025 meeting, the Federal Open Market Committee (FOMC) stated: "The Committee seeks to achieve maximum employment and inflation at the rate of 2 percent over the longer run. Uncertainty around the economic outlook has diminished but remains elevated. The Committee is attentive to the risks to both sides of its dual mandate and judges that downside risks to employment have risen. In support of its goals and in light of the shift in the balance of risks, the Committee decided to lower the target range for the federal funds rate by 1/4 percentage point to 3-1/2 to 3-3/4 percent. In considering the extent and timing of additional adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee is strongly committed to supporting maximum employment and returning inflation to its 2 percent objective."¹

Staff recommends continuing the strategy of investing in short-term, liquid instruments such as money market mutual funds, California Asset Management Pool (CAMP), Local Area Investment Fund (LAIF), high grade corporate medium-term notes and short-term U.S. government treasury and agency securities to maintain the goals of safety and liquidity of the investment portfolio. Staff will look for value within the five-year horizon and will match maturities with cash flow requirements as opportunities arise.

¹ <http://www.federalreserve.gov/monetarypolicy/fomccalendars.htm>

Interest Income

For the quarter ended December 31, 2025, Valley Water received total interest earnings of \$14.7 million. Table 2 below illustrates the historical interest earnings of the investment portfolio.

Table 2 – Portfolio Quarterly Interest Earnings		
Fiscal Year	Quarter Ending:	Earnings*
2025	September	\$4,783,782
	December	\$4,792,830
	March	\$5,466,521
	June	\$6,014,199
	Total	\$21,057,332
2026	September	\$7,226,574
	December	\$7,463,252
	March	
	June	
	Total	\$14,686,826

** Earnings include interest earned plus accrued interest and adjustments for premiums/discounts for the period.*

Performance Measurement

Valley Water benchmarks its portfolio performance against the 24-month floating average of the 2-year Treasury note. This benchmark approximates the holdings of Valley Water relatively closely. However, there is no benchmark that will exactly mimic Valley Water’s mix of investments.

For the quarter ended December 31, 2025, the investment portfolio yield-to-maturity was 3.69% while the benchmark yield was 4.09% for a negative difference of 0.41%. Yields on the 2-year Treasury note reflect the decreasing interest rate in the short end of the yield curve. Valley Water’s portfolio yields are gradually rising because of the staggered maturity investment strategy described above which incorporates holding to maturity certain securities purchased in times of lower rates.

The yield on the investment portfolio is expected to gradually increase over time as excess cash is invested at the current market rates. The portfolio will continue to be invested according to the tenets of safety, liquidity and yield in conformance with the California Government Code and Valley Water Investment Policy.

Summary of Cumulative Changes in the Investment Portfolio

The book value of the portfolio was approximately \$794 million on December 31, 2025 compared to \$822 million on September 30, 2025, a decrease of \$27 million or 3.3%. The decrease reflects the normal fluctuations of Valley Water’s investment portfolio due to the receipt of expected revenues which are offset by various planned expenditures. A significant decrease is due to the payment of \$22M for Water Utility debt service. The historical quarterly changes in book value are summarized in Table 3 below.

Table 3 – Portfolio Book Value				
Fiscal Year	Quarter Ending:	Book Value	\$ Change	% Change
2025	September	\$719,361,017	(\$51,440,580)	-6.7%
	December	\$719,316,713	(\$44,304)	0.0%
	March	\$734,077,386	\$14,760,673	2.1%
	June	\$858,331,307	\$124,253,921	16.9%
2026	September	\$821,815,208	(\$36,516,099)	-4.3%
	December	\$794,455,912	(\$27,359,295)	-3.3%
	March			
	June			

Portfolio Market Valuation

In accordance with California Government Code, all public agencies must report unrealized gains and losses in their investment portfolios on a quarterly basis. Table 4 below shows the market value of Valley Water’s investments as reported by ICE Data Pricing & Reference Data, LLC on December 31, 2025 compared to the amortized book value.

Table 4 – Portfolio Market Value	
Market Value	\$795,505,506
Amortized Book Value	\$794,455,912
Unrealized Gain (Loss)	\$1,049,594

If the entire portfolio had been liquidated on December 31, 2025, Valley Water would have received \$1M more than the total amortized cost of the portfolio. This is the result of a direct relationship between changes in market interest rates and the value of investment securities. As general market interest rates increase, the value of investments purchased at lower yields decreases, and as general market interest rates decrease, the value of investments purchased at higher yields increases. Valley Water’s Investment Policy dictates a buy-and-hold strategy in which Valley Water holds all securities to their maturity under normal operating conditions. When an investment matures, Valley Water is paid the full-face value of that security and therefore incurs no loss or gain.

Collateralization of Outstanding Repurchase Agreements

As of December 31, 2025, Valley Water had no outstanding repurchase agreements.

Debt Information

The Investment Policy and governmental regulations require that Valley Water report on the investment of bond proceeds. Investment of bond proceeds is governed by the legal bond documents and applicable governmental regulations. In particular, these funds can be invested for longer periods to match the terms of the outstanding bonds.

Investment of Debt Proceeds

Table 5 below summarizes the debt proceeds investment information as of December 31, 2025. Pursuant to Section 15B of the Securities Exchange Act of 1934 (Rule 15B al et seq., the “Municipal Advisor Rule”), debt proceeds are invested in or through the accounts that are held by the Trustee, U.S. Bank Trust Company, National Association and are restricted to the specified uses and invested in accordance with the provisions as specified in each corresponding Indenture/Trust Agreement.

Table 5 – Debt Proceeds Market Value			
Description	Market Value 12/31/2025	Yield at market	Maturity Date
SCW 2022B Construction Fund	\$ 26,799,696	3.23%	MM*

*MM=Money Market

Compliance with State Law and Valley Water Policy

For the quarter ending December 31, 2025, all investments were in compliance with the Investment Policy and Board Executive Limitation 7.6.

Valley Water holds several Certificates of Deposit (“CD”) issued by various banks and credit unions. The CD account balances are generally maintained at or below the Federal Deposit Insurance Corporation (FDIC) insurance maximum of \$250,000 per CD, with the exception of the following CDs which are separately secured by Letters of Credit from the Federal Home Loan Bank of San Francisco with a minimum of 105% of account balances in excess of the \$250,000 federal insurance limit: Meriwest Bank; the deposit held at Technology Credit Union and Commercial Bank of Commerce (CBC), formerly known as Community Bank of Bay (CBB), are separately secured with an escrow account with a minimum balance of 110% of the account balance.

The investment portfolio has been structured to ensure that sufficient monies will be available to cover the anticipated expenditure in the coming six months.

Socially Responsible Investments

In a unanimous vote on December 12, 2017, the board voted to amend the investment policy to promote socially responsible investment (SRI) practices, and adopted a set of moral, ethical, environmental, social and governance guiding principles (ESG) to lead investment decisions. The board approved prioritizing local investment possibilities with California based banks and banks with less than \$10 billion in assets, to keep funds in the local economy and promote local job growth. On August 11, 2020, the board enhanced the ESG policy to keep a minimum of 4% of liquid cash in banks with up to \$10 billion in assets and 1% in banks with up to \$2 billion in assets to promote Valley Water’s investments in local community banks.

Total CDs and deposits placed with local banks and credit unions were \$64 million for the period ended December 31, 2025. This represented approximately 8% of the overall Valley Water portfolio’s book value. The change in Valley Water’s investment in CDs and collateralized deposits is summarized in Table 6 below.

Table 6 – Certificate of Deposit (CDs) & Money Market Deposit Summary				
Description	Book Value 09/30/2025	Book Value 12/31/2025	Increase/ (Decrease)	% Change
CDs/Collateralized Deposit Accounts	\$64,123,420	\$64,791,439	\$668,019	1.0%

Community Bank Investments

Valley Water Board has implemented an innovative financing approach which promotes small, local banks' participation in Valley Water's financing business. The Board Executive Limitation (EL) 4.7.7 requires that Valley Water only engage with banks that have an Environmental, Social, and Governance (ESG) rating from at least one professional ESG research company of at least average/medium (or its equivalent). Banks located within the nine Bay Area counties with total assets below \$10 billion are exempt from this limitation. As a result of this policy, the following banking arrangements have been established with institutions meeting these criteria:

- \$65 million in investments in various small, local banks' various deposits that are secured by either the Federal Depository Insurance Corporation or collateralized by Letters of Credit from the Federal Home Loan Bank of San Francisco.
- Three separate letters of credit issued by Technology Credit Union, based in San Jose, totaling \$841,000 to Valley Water to meet the U.S. Army Corp's financial assurance requirements for the operations of Upper Penitencia, Coyote Ridge, and Rancho Cañada de Pala Preserve watershed projects.
- Valley Water underwriting pool is limited to US investment banks with ESG ratings of medium or better with preference for small, local California banks.

Hello!

I hope this email finds you well! My name is Suneri, and I am a high school Senior working on an AP Government project focused on water conservation as a local issue in San Jose.

As part of my project, I am looking to ask a few questions about local water conservation efforts and policies. I found this email address on your website and was hoping you might be able to help or refer me to someone who could.

If possible, I would greatly appreciate the opportunity to speak with someone from your organization for a brief 10–15 minute call within the next few weeks.

Thank you very much for your time and consideration. I truly appreciate any guidance you may be able to provide!

Sincerely,
Suneri Chinthalapati

Subject: Re: Water in South San Jose from Almaden to Cottle Rd.

Sent on Behalf of Director Beall:

Dear Dorota Niewczas,

Thank you for your correspondence dated January 7, 2026. Valley Water's mission is to provide safe, clean water and to steward the region's water resources for the benefit of Santa Clara County. As the countywide wholesale water provider, Valley Water treats and delivers drinking water that meets or exceeds all state and federal standards.

Occasionally, customers may notice changes in the taste or odor of tap water. These variations are typically caused by seasonal source changes, treatment processes, or disinfectant adjustments, and they do not indicate a safety concern. For additional information regarding taste and odor in drinking water, please refer to the following fact sheet: <https://www.valleywater.org/your-water/water-quality/taste-and-odor-facts>.

Because Valley Water supplies treated water to local retail water companies, those retailers manage the distribution systems that deliver water to individual homes and businesses. As a result, they are best positioned to address location-specific taste or odor concerns.

For your locations, the appropriate contacts are:

- **Great Oaks Water Company** (Cottle Road and Goldfield Drive): (408) 227-9540 | customerservice@greatoakswater.com
- **San Jose Water Company** (Almaden Expressway and Blossom Hill Road): (408) 279-7900 | customer.service@sjwater.com

Should you have any further questions, you may contact Sam Bogale, Deputy Operating Officer of the Treated Water Division, at (408) 630-3505 or via email at

sbogale@valleywater.org.

Sincerely,

Jim Beall
Director, District 4

C-26-0003

Hello,

I wanted to bring to your attention that the water at my address [REDACTED] in San Jose as well as the water I have tried at Boudin on Almaden, and Blossom Hill Whole Foods, Starbucks and Five Guys on Cottle Rd. tastes unusually bad. One of your filters may be broken. Please let me know what the issue is and if there is a way for me to get potable water in the meantime.

Thanks,

Dorota Niewczas
