SUBJECT:

Update on Valley Water and City of San José Collaboration to Reduce Encampments Along Waterways.

RECOMMENDATION:

Receive an update on Valley Water's collaboration with the City of San José to reduce encampments of unsheltered people located along waterways within the city.

SUMMARY:

Valley Water and the City of San José (City) intend to collaborate on actions necessary to reduce encampments of unsheltered people along waterways within San José.

Valley Water and the City have historically collaborated on projects of mutual interest, including entering into various Memoranda of Agreement since 2004 to promote a more effective use of resources and expertise to remove encampment generated trash, debris, and hazardous pollutants from local waterways and to remove trash rafts from within waterways. Valley Water and the City are also in the process of working on a collaborative agreement to create an interim shelter housing community on land owned by Valley Water to help unsheltered individuals to transition from homelessness to permanent housing.

Valley Water and the City are each subject to their respective Municipal Regional Stormwater Permit regulations pursuant to the Clean Water Act, which requires protecting the environment and human health by preventing pollution from trash, debris, and hazardous waste from contaminating receiving waters, such as oceans, rivers, lakes, streams, and bays. In support of these obligations, Valley Water and the City are committed to partnering to restore riparian habitat and assist unsheltered people currently living in waterways by securing sites for shelter and housing.

Valley Water and City staff will provide an update on efforts to establish and implement a shared roadmap to secure sites for shelter and housing, identify areas for targeted relocation of encampments, and ultimately reduce the impacts of camping along waterways within the City of San

José.

ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:

There are no Environmental Justice impacts associated with this update. However, the potential projects implemented under this collaboration will impact the vulnerable unsheltered community as Valley Water and the City of San José seek to provide shelter and services to improve outcomes.

Government Code § 84308 Applies: Yes No
(If "YES" Complete Attachment A - Gov. Code § 84308)

SUBJECT:

Receive an Update Regarding Assembly Bill 1469 Implementation.

RECOMMENDATION:

Receive an update on Valley Water's efforts to exercise the authority granted by Assembly Bill 1469 to take certain actions to assist unsheltered people living along streams, in riparian corridors, or otherwise within the district's jurisdiction.

SUMMARY:

Valley Water-sponsored Assembly Bill 1469 (AB 1469) *Valley Water Assisting Unsheltered People*, authored by Assemblymember Ash Kalra (D - San José), amends the Santa Clara Valley Water District Act (District Act) to authorize Valley Water to assist unsheltered individuals living along streams, in riparian corridors, or otherwise in Valley Water's jurisdiction, in consultation with a city or the County of Santa Clara, to provide solutions or improve outcomes for unsheltered individuals.

By amending the statutory purposes of Valley Water, AB 1469 provides flexibility to use revenue from an existing 1% ad valorem property tax to fund the authorizations in the new law. This revenue is the primary source of funds for Valley Water's Watershed and Stream Stewardship Fund (WSS Fund). Specifically, AB 1469 authorizes Valley Water to contract with a city, the County of Santa Clara, or the state to provide outreach, counseling, interim or long-term housing, public safety, or other services for unsheltered people. It authorizes contracting with nongovernmental entities for outreach, counseling interim or long-term housing, or other services, albeit in coordination with a city, if applicable, the Continuum of Care, and the County of Santa Clara. Finally, the law authorizes Valley Water to provide, develop, sell, or lease land for the construction of low-barrier navigation centers, supportive housing, transitional housing, affordable housing, or other facilities to assist unsheltered people.

Staff will provide an update of AB 1469 project implementation activities, including collaboration and discussion of specific Valley Water-owned properties with potential government and nonprofit development partners.

ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:

There are no Environmental Justice impacts associated with this update. However, the potential projects implemented under AB 1469 will impact the vulnerable unsheltered community as Valley Water seeks to provide shelter and services to improve outcomes.

File No.: 24-0714

Agenda Date: 7/29/2024

Item No.: 4.4.

COMMITTEE AGENDA MEMORANDUM Environmental Creek Cleanup Committee

Government Code § 84308 Applies: Yes No
(If "YES" Complete Attachment A - Gov. Code § 84308)

SUBJECT:

Review the Environmental Creek Cleanup Committee (ECCC) Work Plan.

RECOMMENDATION:

Review the Committee work plan to guide the committee's discussions regarding policy alternatives and implications for Board deliberation.

SUMMARY:

The attached Work Plan outlines the approved topics for discussion to be able to prepare policy alternatives and implications for Board deliberation. The work plan is agendized at each meeting as accomplishments are updated and to review additional work plan assignments by the Board.

BACKGROUND:

Governance Process Policy-8:

The District Act provides for the creation of advisory boards, committees, or commissions by resolution to serve at the pleasure of the Board.

Accordingly, the Board has established Advisory Committees, which bring respective expertise and community interest, to advise the Board, when requested, in a capacity as defined: prepare Board policy alternatives and provide comment on activities in the implementation of the District's mission for Board consideration. In keeping with the Board's broader focus, Advisory Committees will not direct the implementation of District programs and projects, other than to receive information and provide comment.

Further, in accordance with Governance Process Policy-3, when requested by the Board, the Advisory Committees may help the Board produce the link between the District and the public through information sharing to the communities they represent.

ENVIRONMENTAL JUSTICE IMPACT:

There are no Environmental Justice impacts associated with this item.
