Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

**MEMORANDUM**

FC 14 (02-08-19)

TO: Board of Directors**FROM:** Darin Taylor,
Chief Financial Officer**SUBJECT:** Monthly and Quarterly Report of Investments
as of September 30, 2023**DATE:** October 25, 2023**SUMMARY:**

In accordance with Santa Clara Valley Water District ("Valley Water") Investment Policy and California Government Code sections 53607 and 53646, the Treasurer's Monthly and Quarterly Report of Investments as of September 30, 2023 is attached. This report complies with Executive Limitation-4 Financial Management.

RATIONALE:

California Government Code section 53607 requires the Treasurer of the local agency who has been delegated with the authority to invest funds to provide a monthly report of the investment transactions to the legislative body. Furthermore, Government Code Section 53646 recommends that the Treasurer submit a quarterly report to the legislative body of the local agency to assist with its fiscal oversight role. The quarterly report shall include the types of investment, issuer, date of maturity, par, market value and dollar amount for all securities, investments and moneys held by the local agency. The report shall also confirm compliance of the portfolio with the investment policy as well as a statement denoting the agency's ability to meet its expenditure requirements for the next six months. This report is provided to the Board in compliance with Board Investment Policy and Government Code sections 53607 and 53646.

STAFF ANALYSIS:**Interest Rates**

The yield-to-maturity of the investment portfolio as of September 30, 2023, was 2.16%. Table 1 below summarizes the historical yield-to-maturity of the investment portfolio.

Table 1 - Portfolio Yield-to-Maturity (365 days equivalent)				
Fiscal Year	September Q1	December Q2	March Q3	June Q4
2023	1.21%	1.28%	1.76%	1.76%
2024	2.16%			

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

Investment Strategy

In accordance with the strategy recommended by the Investment Committee and approved by the Board, staff continues to ladder the portfolio. When funds mature, if the money is not needed for current expenditures, they are reinvested in securities that have maturities of up to five years.

The average life of the portfolio on September 30, 2023 was 415 days (1.1 years), well within the 2.5-year average life threshold permitted by the Investment Policy. During the quarter, the Treasury Officer purchased 3 securities totaling \$15M with weighted average yield-to-maturity 5.3%.

Valley Water's portfolio is invested with a primary goal of safety. To accomplish this goal, staff only invests in securities that are permitted by California Government Code and the Valley Water Investment Policy. These securities have high credit ratings and maturities of no more than 5 years. As of September 30, 2023, approximately 67% of the portfolio was held in US Government Treasury/Agency Notes and Municipal Bonds, 31% was held in liquid funds (Local Area Investment Fund/money market mutual fund, CD's) and 2% in supranational/corporate medium-term notes.

The current short-term interest rate environment correlates to the Federal Funds target rate. At the September 19-20, 2023 meeting, the Federal Open Market Committee (FOMC) stated: "The Committee seeks to achieve maximum employment and inflation at the rate of 2 percent over the longer run. In support of these goals, the Committee decided to maintain the target range for the federal funds rate at 5-1/4 to 5-1/2 percent. Holding the target range steady at this meeting allows the Committee to assess additional information and its implications for monetary policy. In determining the extent of additional policy firming that may be appropriate to return inflation to 2 percent over time, the Committee will take into account the cumulative tightening of monetary policy, the lags with which monetary policy affects economic activity and inflation, and economic and financial developments."¹

Staff recommends continuing the strategy of investing in short-term, liquid instruments such as money market mutual funds, Local Area Investment Fund (LAIF), high grade corporate medium-term notes and short-term U.S. government treasury and agency securities to maintain the goals of safety and liquidity of the investment portfolio. Staff will look for value within the five-year horizon and will match maturities with cash flow requirements as opportunities arise.

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

Interest Income

For the quarter ended September 30, 2023, Valley Water received total interest earnings of \$3.7 million. Table 2 below illustrates the historical interest earnings of the investment portfolio.

Table 2 – Portfolio Quarterly Interest Earnings

Fiscal Year	Quarter Ending:	Earnings*
2023	September	\$2,309,729
	December	\$2,505,486
	March	\$2,876,849
	June	\$3,219,211
	Total	\$10,911,275
2024	September	\$3,651,940
	December	
	March	
	June	
	Total	\$3,651,940

** Earnings include interest earned plus accrued interest and adjustments for premiums/discounts for the period.*

Performance Measurement

Valley Water benchmarks its portfolio performance against the 24-month floating average of the 2-year Treasury note. This benchmark approximates relatively closely to the holdings of Valley Water. However, there is no benchmark that will exactly mimic the Valley Water's mix of investments.

For the quarter ended September 30, 2023, the investment portfolio yield-to-maturity was 2.16% while the benchmark yield was 3.25% for a negative difference of 1.1%. Yields on the 2-year Treasury note reflect the increasing interest rate in the short end of the yield curve. Valley Water's portfolio yields are lower because of the staggered maturity investment strategy described above which incorporates holding to maturity certain securities purchased in times of lower rates.

The yield on the investment portfolio is expected to remain modest over the next few quarters but may gradually increase over time as excess cash is invested at the current market rates. The portfolio will continue to be invested according to the tenets of safety, liquidity and yield in conformance with the California Government Code and Valley Water Investment Policy.

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

Summary of Cumulative Changes in the Investment Portfolio

The book value of the portfolio was approximately \$655 million on September 30, 2023 compared to \$732 million on June 30, 2023, a decrease of \$77 million or 10.5%. The decrease reflects the normal fluctuations of Valley Water's investment portfolio due to receipt of expected revenues (e.g. property taxes, water utility revenues, etc.) which are offset by various planned expenditures, such as, semi-annual payments of \$17.5M for the State Water and Central Valley Projects, \$27M to the California Public Employees' Retirement System, Watersheds debt service of \$3.6M, construction costs of \$18M for Anderson dam and Upper Llagas projects, and other quarterly expenditures. The historical quarterly changes in book value are summarized in Table 3 below.

Table 3 – Portfolio Book Value				
Fiscal Year	Quarter Ending:	Book Value	\$ Change	% Change
2023	September	\$730,294,325	(\$116,337,279)	-13.7%
	December	\$655,139,839	(\$75,154,486)	-10.3%
	March	\$670,073,201	\$14,933,362	2.3%
	June	\$732,143,570	\$62,070,369	9.3%
2024	September	\$655,266,774	(\$76,876,796)	-10.5%
	December			
	March			
	June			

Portfolio Market Valuation

In accordance with California Government Code, all public agencies must report unrealized gains and losses in their investment portfolios on a quarterly basis. Table 4 below shows the market value of Valley Water's investments as reported by ICE Data Pricing & Reference Data, LLC on September 30, 2023 compared to the amortized book value.

Table 4 – Portfolio Market Value	
Market Value	\$631,880,145
Amortized Book Value	\$655,266,774
Unrealized Gain (Loss)	(\$23,386,629)

If the entire portfolio had been liquidated on September 30, 2023, Valley Water would have received \$23 million less than the total amortized cost of the portfolio. This is the result of a direct relationship between changes in market interest rates and the value of investment securities. As general market interest rates increase, the value of investments purchased at lower yields decrease, and as general market interest rates decrease, the value of investments purchased at higher yields increase. Valley Water's Investment Policy dictates a buy-and-hold strategy in which the Valley Water holds all securities to their maturity under normal operating conditions. When an investment matures, Valley Water is paid the full-face value of that security and therefore incurs no loss or gain. Since the portfolio was not liquidated, the "market loss" was unrealized and had no impact on the portfolio size or yield.

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

Collateralization of Outstanding Repurchase Agreements

As of September 30, 2023, Valley Water had no outstanding repurchase agreements.

Debt Information

The Investment Policy and governmental regulations require that Valley Water report on the investment of bond proceeds. Investment of bond proceeds is governed by the legal bond documents and applicable governmental regulations. In particular, these funds can be invested for longer periods to match the terms of the outstanding bonds.

Investment of Debt Proceeds

Table 5 below summarizes the debt proceeds investment information as of September 30, 2023. The investments of the debt proceeds are in accordance with the provisions for Permitted Investments as specified in each corresponding Indenture/Trust Agreement.

Table 5 – Debt Proceeds Market Value			
Description	Market Value 09/30/2023	Yield at market	Maturity Date
SCW 2022B Acquisition/Construction Fund	\$39,691,742	4.81%	MM*

MM=Money Market

Compliance with State Law and Valley Water Policy

For the quarter ended September 30, 2023, all investments were in compliance with the Investment Policy and Board Executive Limitation 7.6.

Valley Water holds several Certificates of Deposit (“CD”) issued by various banks and credit unions. The CD account balances are generally maintained at or below the Federal Deposit Insurance Corporation (FDIC) insurance maximum of \$250,000 per CD, with the exception of the following CDs which are separately insured by Letters of Credit from the Federal Home Loan Bank of San Francisco with a minimum of 105% insurance value for account balances in excess of the \$250,000 federal insurance limit: Community Bank of the Bay, Meriwest Bank and Technology Credit Union.

On October 13, 2020, the Board authorized placing a deposit of up to \$14 million in a Certificate of Deposit Account Registry Service (CDARS) account with the Bank of San Francisco as part of the transaction related to the establishment of a \$170 million syndicated bank line of credit. On April 28, 2022, an additional deposit of \$4 million was placed in the CDAR with the Bank of San Francisco. The total Bank of San Francisco CDAR account balance of \$18 million is insured by the FDIC as each individual CD held within the CDAR account is maintained at less than the \$250,000 maximum FDIC insurance limit.

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

The investment portfolio has been structured to ensure that sufficient monies will be available to cover anticipated expenditures in the coming six months.

Socially Responsible Investments

In a unanimous vote on December 12, 2017, the board voted to amend the investment policy to promote socially responsible investment (SRI) practices, and adopted a set of moral, ethical, environmental, social and governance guiding principles (ESG) to lead investment decisions. The board approved prioritizing local investment possibilities with California based banks and banks with less than \$10 billion in assets, to keep funds in the local economy and promote local job growth. On August 11, 2020, the board enhanced the ESG policy to keep a minimum of 4% of liquid cash in banks with up to \$10 billion in assets and 1% in banks with up to \$2 billion in assets to promote Valley Water's investments in local community banks.

Total CDs and deposits placed with local banks and credit union was \$50.68 million for the period ended September 30, 2023. This represented approximately 7.7% of the overall Valley Water portfolio's book value. The change in Valley Water's investment in CDs and collateralized deposits is summarized in Table 6 below.

Table 6 – Certificate of Deposit (CDs) & Money Market Deposit Summary				
Description	Book Value 06/30/2023	Book Value 09/30/2023	Increase/ (Decrease)	% Change
CDs/Collateralized Deposit Accounts	\$50,429,597	\$50,681,803	\$252,206	0.5%

Subject: Monthly and Quarterly Report of Investments as of September 30, 2023

Community Bank Investments

Valley Water Board has implemented an innovative financing approach which promotes small, local banks participation in Valley Water's financing business. The Board Executive Limitation (EL) 4.7.7 requires that Valley Water only engage with banks that have an Environmental, Social, and Governance (ESG) rating from at least one professional ESG research company of at least average/medium (or its equivalent). Banks located within the nine Bay Area counties with total assets below \$10 billion are exempt from this limitation. As a result of this policy, the following banking arrangements have been established with institutions meeting these criteria:

- \$20 million in Revolving Lines of Credit from three small local California banks (Bank of San Francisco, Community Bank of the Bay and First Foundation Bank).
- \$50.7 million in investments in various small, local banks' various deposits that are secured by either the Federal Depository Insurance Corporation or collateralized by Letters of Credit from the Federal Home Loan Bank of San Francisco.
- Three separate letters of credit issued by Technology Credit Union, based in San Jose, totaling \$841,000 to Valley Water to meet the U.S. Army Corp's financial assurance requirements for the operations of Upper Penitencia, Coyote Ridge, and Rancho Cañada de Pala Preserve watershed projects.
- Valley Water underwriting pool is limited to US investment banks with ESG ratings of medium or better with preference for small, local California banks.

Closing Rosendin Park

I just found out about this on Nextdoor and I am heartbroken. We are begging you!! Do not close Rosendin Park.

Leave the barricades where they are now. We have walked these trails for 25 years with our grandson and neighbors and have lived in Jackson Oaks for 48 years. Every time our grandson visits, that is where he wants to go. I also

have a group of ladies I walk with on Tuesday morning that come up from the town area and feel so grateful to have this place of respite.

It is beautiful, peaceful, close to home, and full of memories. We may not live long enough to see it reopened. We think

it would be an unnecessary hardship for many in the community to have these trails closed! They promote our good mental health. We need this respite. Please do not close Rosendin Park. Jim and Nadine Kelley

Subject: Creek Flooding mitigation

*** This email originated from outside of Valley Water. Do not click links or open attachments unless you recognize the sender and know the content is safe. ***

Your recent email with link to video about preparing creeks to avoid flooding is hard to watch for anyone living near San Francisquito Creek.

<https://www.youtube.com/watch?v=XCEixz0JzFQ>

We did have flooding last year and famously in 1998. Little has been done to protect the Crescent Park neighborhood of Palo Alto since then.

In fact, instead of clearing and deepening channels of the SF Creek, the JPA advises cities to cut up large debris and leaves it in the creek, increasing the risk of debris log jams at bridges.

This means cities must position an excavator/backhoe at these bridges to remove debris in the hope of reducing flood risk.

I understand that the SF Creek flows through multiple jurisdictions complicating efforts to mitigate flood risks. But after 25 years residents have legitimate grievances against how the SF Creek flooding has been managed.

Perhaps a push from Valley Water could accelerate our progress toward a solution.

Sincerely,
John Guislin
