4. REGULAR AGENDA:

4.1. Receive South County Water Reuse Collaboration Update and Provide Feedback.

Recommendation: Receive an update and provide feedback on South County water reuse collaboration and implementation.

Dave Tucker reviewed the information on this item per the attached Committee agenda memo, and per the information contained in Attachment 1.

Handout 4.1-A, email from Doug Muirhead and Handout 4.1-B, email from staff in response to Doug Muirhead was distributed to the Committee and made available to the public.

Dave Tucker, Kirsten Struve, and Andy Gschwind were available to answer questions.

Public Comments:
Doug Muirhead.

The Committee received the information, took no formal action, and noted the following

- The Committee expressed interest in confirming the developer near the Southern alignment and noted the collaborative process of pipe upsizing with developers and Valley Water.
- The Committee noted that securing federal and state funding for water projects is increasingly competitive and expressed support for utilizing available tools to expedite the process, including a possible joint outreach letter from Valley Water and the elected officials of the Cities of Gilroy and Morgan Hill.
- The Committee noted that a feasibility study is required, which may take up to 2 years before construction funding can be requested, and expressed interest in continuing to explore strategies to advance South County in the queue for priority funding.
- The Committee expressed support for utilizing upcoming meetings and conferences to continue engaging with federal and state representatives.
- The Committee confirmed the status of the pressurized pipeline connection to the Glen Loma Ranch development and noted construction may begin around April 2026.
- The Committee confirmed the general feasibility study process, including reviewing and ranking projects, consideration of the cost effectiveness and public benefit, supporting funding sources, community support, and agency collaboration, all of which assist projects in rising to the top for evaluation.

- The Committee confirmed the current recycled and purified water percentages versus the overall goal and expressed support for pursuing an accelerated timeframe for stakeholder workshops in Gilroy and Morgan Hill.
- The Committee noted staff's success in collaborating on grant opportunities and discussed potential water purification locations, as well as the challenges related to water availability, costs, and the delays associated with federal and procurement processes.

4.2. Review and Discuss the Joint Water Resources Committee 2025 Work Plan; and Confirm the Next Meeting Date.

Recommendation: Review and discuss the JWRC Work Plan; and confirm the next meeting date.
