Such corrective processing may include but is not limited to mutual fund price corrections, rounding errors and transaction processing corrections on the part of the Participant, Sponsor, Authorized Representative, Mutual Fund providers or Nationwide. However, if the corrections required are due to transaction processing errors by parties other than Nationwide, we may require such parties to pay for any losses caused by completing the corrective processing. ^ **Mutual Fund Service Fee Payments** ⁶

Description of services rendered and method of payment

Nationwide offers investment options, and purchases and sells shares of certain mutual funds in the aggregate each day so that the performance of the investment options corresponds to the performance of those mutual funds. When the Accounts aggregate these transactions, the mutual fund does not incur the expense of processing individual transactions that it would incur if it sold its shares to the public directly. This expense is instead incurred by the Nationwide companies. The Nationwide companies also incur the distribution costs associated with selling the retirement products, which benefits the mutual funds by providing Sponsors and participants with investment options that correspond to the underlying mutual funds. An investment adviser or subadviser of a mutual fund or its affiliates may provide the Nationwide companies with wholesaling services that assist in the distribution of the retirement products and may pay to participate in educational and/or marketing activities. These activities may provide the adviser or subadviser (or their affiliates) with increased exposure to persons involved in the distribution of the retirement products. In light of the above, certain mutual funds or their affiliates make payments to the Nationwide companies. The amount of these payments is typically based on an agreed upon percentage times the amount of assets that the Accounts invest in the mutual funds. These payments may be used for any corporate purpose, which includes reducing the price of the retirement products,

paying expenses that the Nationwide companies incur in promoting, marketing, and administering the retirement products and achieving a profit. Payments are made to Nationwide Investment Services Corp, an affiliate, and then in full to Nationwide Trust Company, FSB.

Amount and/or location of additional disclosure information

Additional information may be found in the Administrative Agreement and applicable mutual fund prospectus
