Three little pigs had homes to build.

**Their Mama warned them;
Oh, their minds she filled.**

**"I have stories of bad weather. I have stories of great floods.
You need to be careful of the wind and rain and mud!"**

The first pig built his house of straw.
He built it by the creek. "I didn't listen to my Ma!"

The second pig built in the flood plain. "It's where the water goes when we get a lot of rain." He used a lot of sticks and a little wood stain.

The third pig built his house of brick.
"I built it on a hill and made the walls pretty thick!"

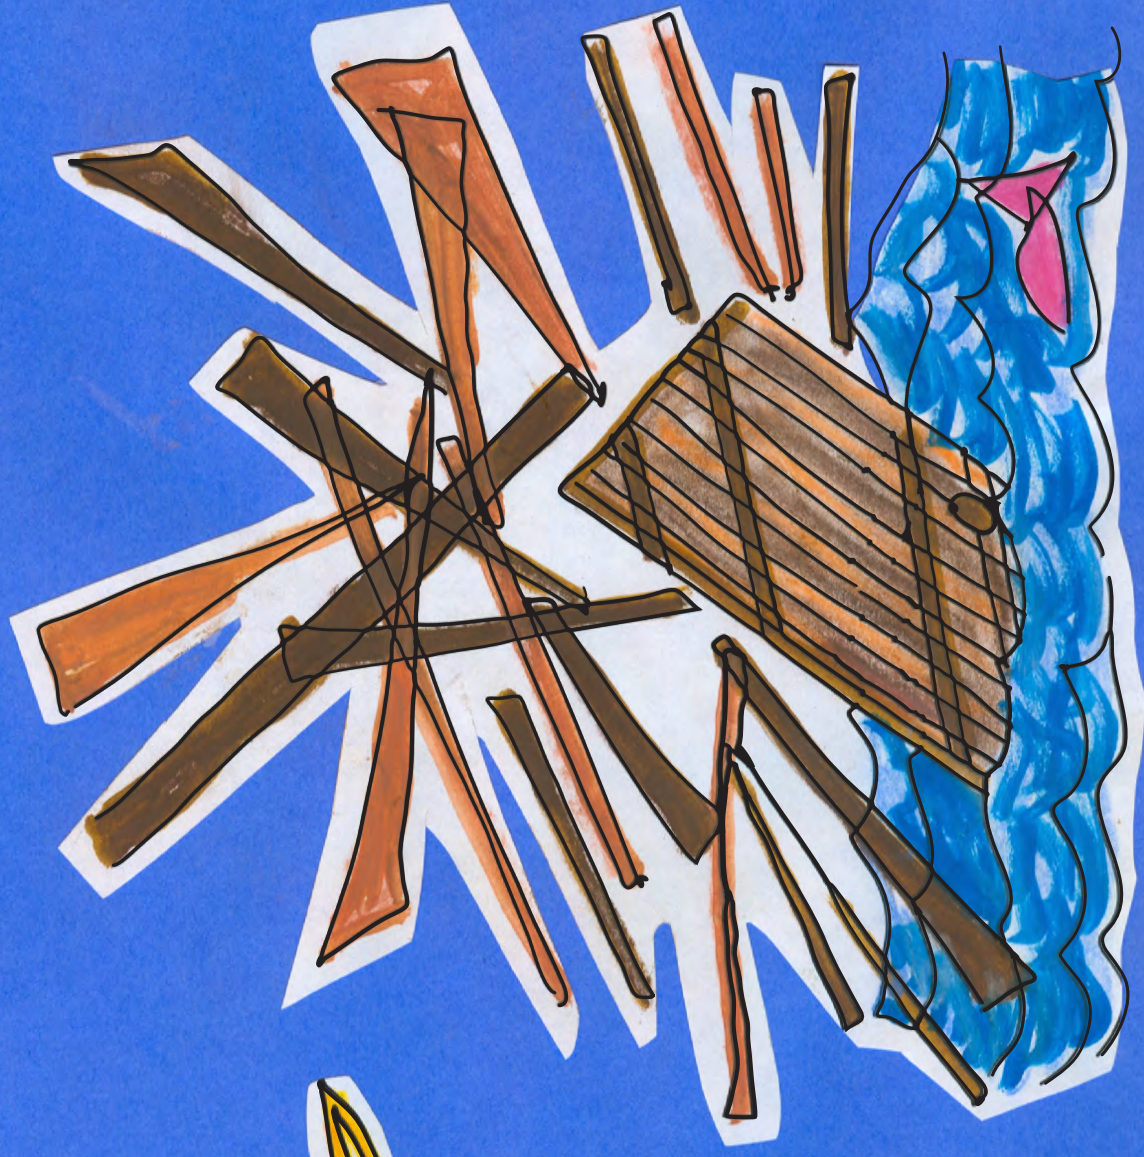

Three handsome houses, straw, sticks and brick.
If a big storm was coming, which one would you pick?

“COMF COMF”

The weather wolf said.
He huffed and he puffed; and he shook his head.

The first little pig said, "The weather wolf blew down my house of straw! The fiercest wind and rain we ever saw!"

The second little pig said, "My house of sticks was flooded right away. We two little pigs had to flee that day"

Three little pigs hiding in the house of bricks, the weather wolf huffed and puffed just for kicks. The old weather wolf beat on the walls. Howling and thumping, he scared them all!

But the three little pigs were safe inside,
drinking hot chocolate. They didn't have to hide!

The old weather wolf finally blew out of town.
He wasn't very happy; his face had a frown!

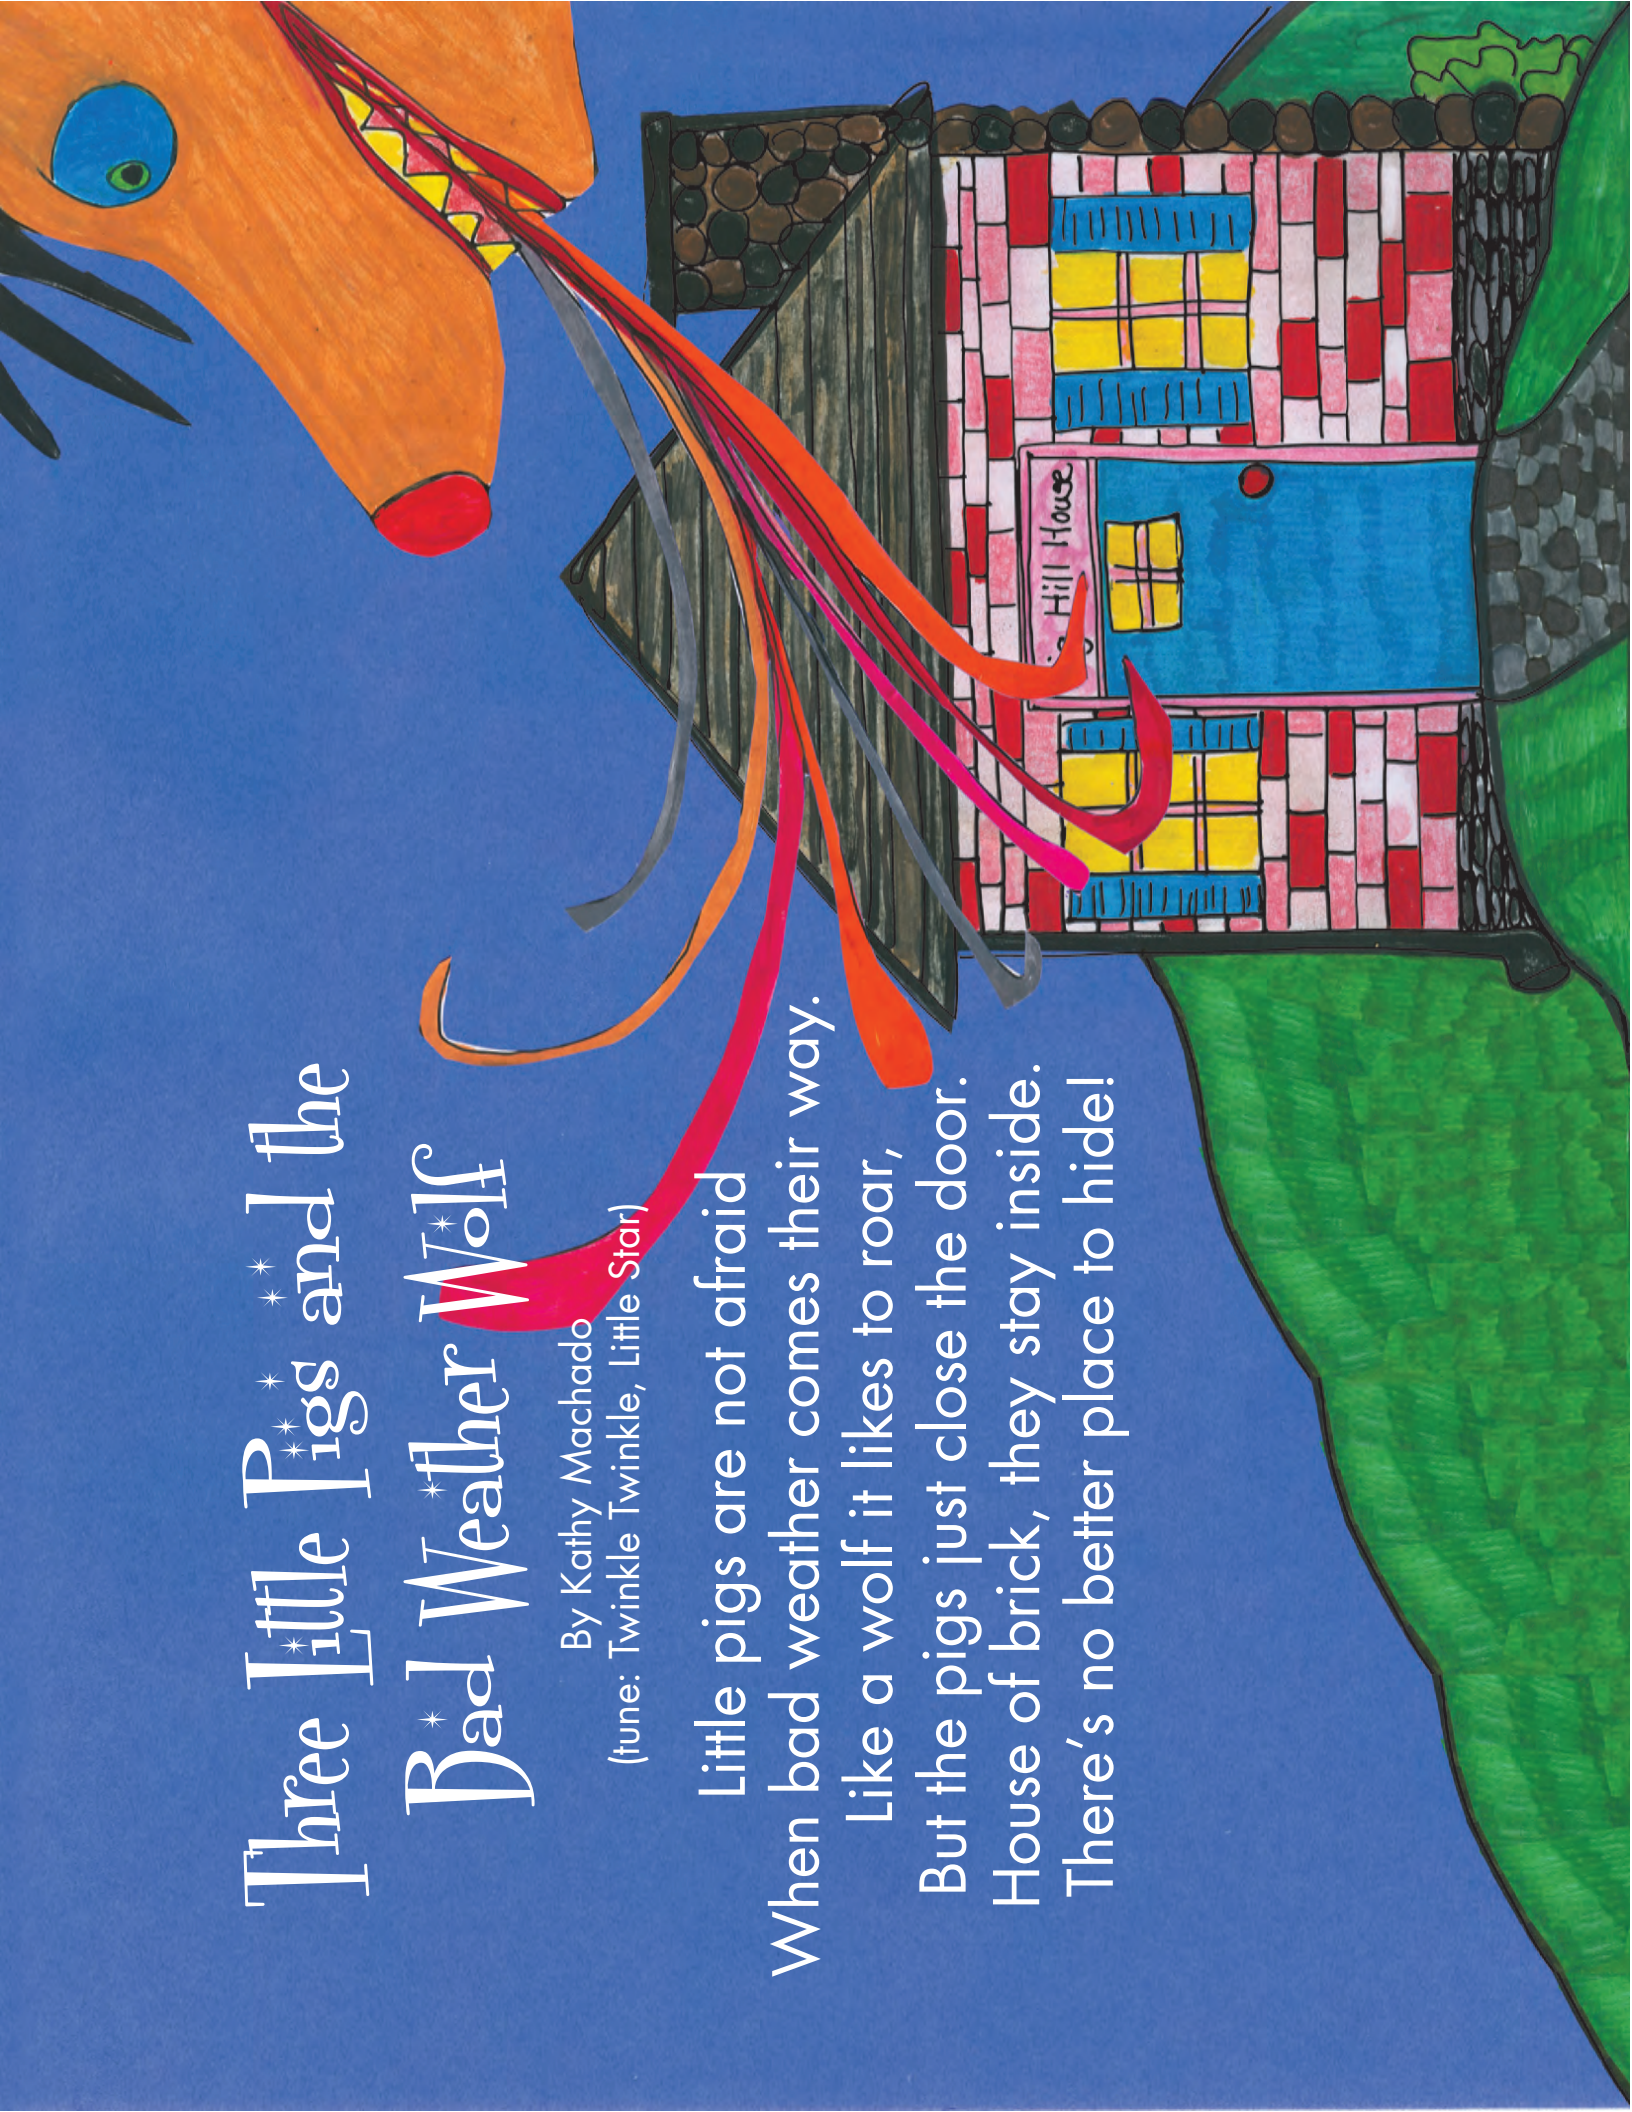

Three handsome houses, straw, sticks and brick.
If a big storm was coming, which one would you pick?

Three Little Pigs and the Bad Weather Wolf

(tune: Twinkle Twinkle, Little Star)

Little pigs are not afraid
When bad weather comes their way.
Like a wolf it likes to roar,
But the pigs just close the door.
House of brick, they stay inside.
There's no better place to hide!
